Vision Doeve Brokers

A *** Hotel Passenger vessel that has been refitted for a big part in 2011, whereby among other things the complete propulsion installations as well as the generators were renewed, which provides a good operational reliability. In the following years, further modernization and repairs were carried out. For example, the guest cabins were upgraded in 2018/2019 and the reception area and the day toilet group were renewed in 2019/2020. It is an operational ship that has a very large cruising area due to her equipment and construction. There are a total of 69 guest cabins with en-suite bathroom and 15 crew cabins with en-suite bathroom. There is an elevator on board, making all floors and the sun deck accessible for the disabled.
