Vision Doeve Brokers

Aluminum motor yacht with aft cabin with in there a double bed, salon with inside steering position and a fixed bench, galley with a dinette and a toilet room. There is also an outside steering position and with the folding windshield there is an air draft of approximately 2.50 meters. In 2010, a new diesel engine was installed, which has been running for approximately 900 hours since then. In our view an interesting ship with a large cruising area for beautiful trips in the Netherlands, Belgium, France, Germany but also further to the east or to Scandinavia is possible.
