## Vision Doeve Brokers

A Hotel Passenger Ship that is available immediately to be used for river cruises or inland waterways. The salon with panoramic view is located in the front of the ship with the cozy bar slightly backwards and further back is the restaurant with a professional kitchen located. The 92 guest cabins have each 2 beds and an en-suite bathroom. There is also a sauna on board. On the sun deck there is a sun awning that can be lowered, just like the wheelhouse and the chimney, so that a bridge clearance of approx. 7.30 meters can be reached. There are more than enough cabins available for the crew, as many as 35. This cruise ship is also ideal for functioning as an accommodation ship, for example for working migrants. So if you are in need of a ship or an accommodation, this is your chance.
