John Alden Schooner casco 54

Dimensions (m)	16.32 x 4.43 x 1.98	Ref. no.	210207
Mooring	Near Harlingen, Netherlands	Year	2020
		Material	steel

Vision Doeve Brokers

A beautifully built hull of a classic sailing yacht. The drawings are from the well-known American naval architect John G. Alden who has drawn many great ships. This hull has been built at a very good shipyard, that is offered for less than half the cost price. The steelwork was carried out with blasted shipbuilding steel and then fully coated with a 2-component basic system. Shipyard SRF can realize the entire completion for you, but you can also carry out the completion under your own management. An excellent opportunity to realize your dream yacht with a great basis.
