Vision Doeve Brokers

Former inland cargo vessel that has been completely converted into a Cruising Live Aboard Barge / Houseboat with an open cockpit. In 2003, the interior of the barge was almost completely removed and rebuilt. In 2006, the outside was completely sandblasted and provided with a 2-component coating. In 2014, the underwater ship has been doubled and the electrical system, among other things, was completely renewed and expanded so that she has become a self-sufficient ship now. The interior is simple but solid and equipped with the necessary conveniences. There is a spacious kitchen, spacious bathroom, an owner's cabin with a French bed and a spacious wheelhouse. In our opinion she is an excellent Dutch Barge to discover the waterways of France, Belgium, Germany and the Netherlands.
