Vision Doeve Brokers

A tour boat built at a well-known shipyard and based on a Dutch motor yacht type "Stevensvlet". It is a well-maintained and fully certified day passenger vessel that can carry up to 75 guests on board. During the construction, it was also taken into account that she also must be usable as a foot/bicycle ferry. A multi-purpose ship which is also ideal for converting into a cruising houseboat or as a motor yacht. Equipped with a reliable Volvo Penta diesel, professional whisper generator, central heating, professional and lockable wheelhouse, galley, bathroom with shower, storage room with sleeping possibility, spacious salon, guest toilet and an open cockpit. In our view an unique opportunity to acquire a young ship for a fraction of the new price.
