Vision Doeve Brokers

Former inland vessel that has been completely refurbished into a comfortable cruising live aboard. The wheelhouse is foldable, which means that an air draft of approx. 3,40 meters can be realized. From the wheelhouse you have an easy access into the spacious aft cabin with a 2-persons bed, en-suite bathroom and toilet, and to the front you enter the spacious salon with open kitchen, dining table and sitting area. There is a large storage room under the salon. Further forward there are 3 cabins with en-suite bathroom/toilet of which 1 cabin is now in use as an office. The technical fit out makes this Dutch Barge completely independent from the shore. The bow thruster provides extra maneuverability so it is an easy to navigate barge. With a spacious terrace, we think it is highly recommended for the bon vivant who wants to cruise on the French, Belgian, Dutch and German inland waterways.
