## Vision Doeve Brokers

Former inland cargo vessel that was at the time presumably used for the transport of milk and subsequently converted into a live aboard. The current owner bought her in 2000 in a neglected condition and completely renovated the vessel. The ship was then, among other things, blasted inside and outside, the hull was repaired where necessary and a new paint system was applied. Subsequently, a completely new interior was fitted out. In 2013 she was equipped with a new engine. The layout from front to back is as follows: 2x single bed, dinette, galley, bathroom with electric toilet and shower and at last the wheelhouse. It is a very well maintained ship and she is available immediately.
