Vision Doeve Brokers

A former Dutch Barge "Motorpakschuit" named "Stad Woerden II" which was eventually refurbished into a party ship / passenger ship. It has been taken into account that the lower bridges must also be passable. For this reason, the railing around the upper deck can be folded, which makes it possible to reach an air draft of approximately 2.80 meters. It is a simple barge that is equipped with a toilet, lounge that can be arranged freely, bar and wheelhouse. In our view, it is a nice boat that still can be used as a day passenger ship because her certificate is valid until 04-2024. It is also a possibility to convert her into a Sailing Live Aboard barge. With her wide body construction, this gives a lot of interior space. It is a ship that can pass through Amsterdam on the river Amstel without the need for bridge openings.
