Vision Doeve Brokers

Former inland freighter that has been converted into a sailing live aboard. Partly because of her partly covered gangways, she is a striking appearance. The galley is located in the aft cabin, but can perhaps better be described as a living kitchen. One floor below there is a large room with a sitting area and a bar. From there you have access to the engine room. The bar area is also connected to the salon which is located on an elevation due to the underlying water tank. Next are at starboard side two guest cabins and at port side the spacious owners cabin. Finally, there is the bathroom with toilet including a bath with hand shower. This barge is extremely spacious inside and has also two sundecks outside. The ship does have overdue maintenance. The interior requires attention as well as parts of the technology. Outside the paintwork needs to be tackled. It is a project but for someone who is a bit handy will most of the work not be a problem.
