Vision Doeve Brokers

Former workboat of the Dutch waterway authorities (Rijkswaterstaat) that has been deployed on the major rivers of the Netherlands and the NL-Ketelmeer. After she left service in 1978, she was refurbished into a sturdy recreational vessel. A 52 hp / 38 kW, 3 cylinder Kromhout provides the propulsion. A movie of the running engine is available. In the front there is a sleeping accommodation (bed size 1.15 x 1.86 m). After a few adjustments, it is possible to create more sleeping space. From the salon you have a good view all around. She has a large sailing area due to her low air draft and shallow draft. A great boat to spend the weekends and holidays on.
