Vision Doeve Brokers

Very well maintained Valk cruiser Voyager from the first owner. The layout was designed by the owner himself with the idea to keep as much ground floor as possible. The salon, galley and dinette are on the same level. There is 1 small staircase to the toilet and guest cabin in the fore ship and there is 1 small staircase to the owner's cabin with French bed and separate bathroom and separate toilet area with washing machine and dryer. The technical installation was installed by a professional company. For safety reasons, the owner has chosen for not having gas on board but to cook on a ceramic hob. The propulsion comes from two engines, they both look like if they were installed yesterday. The ship is ready to sail, suitable for permanent living on board and can be delivered quickly.
