Vision Doeve Brokers

Seaworthy ketch rigged sailing yacht with an inside- and outside steering position which makes it comfortable sailing in different weather conditions. The ship was completely professionally painted on the outside in 2019 and is in a good condition. Partly due to the insulation, the presence of a generator and solar panels, she is very suitable for a long stay on board like sailing around the world. Some parts of the teak interior needs, according to our opinion, some cleaning and treatment with a teak caring product. She is a spacious and well-maintained ship that can give you a lot of pleasure for many years to come.
