Vision Doeve Brokers

Former inland vessel that has been converted into a recreational vessel. According to lore she was built at the time and used as a crew tender for transferring personnel to seagoing vessels. The underwater hull was blasted until the waterline and preserved with epoxy in 2015. In the aft cabin there is a 1-persons sleeping accommodation. Followed by the toilet on starboard side and the galley on port side. Then there is the salon, the inside steering position and the front cabin with 2-persons sleeping accommodation. The ship is well maintained on the outside, but on the inside there are a number of things that needs attention. This has already been taken into account in the asking price. A fine boat for the handy do-it-yourselfer or maybe even for a student who is looking for an accommodation.
