Vision Doeve Brokers

The motor yacht is a design of the very renowned nautical architect Van de Stadt. The hull dates from 2000 but the launch was in 2004. The interior was designed and finished by the 1st owner at the time. The layout from front to rear is as follows: front cabin with a double bed, dinette, galley, bathroom with rain shower and an electric toilet, guest cabin with double bed, inside steering position, seating, spacious cockpit with outside steering position, door to swimming platform. The 4 solar panels ensure that the batteries remain filled. The ship is insulated, which makes it a wonderful yacht to stay on board in spring and autumn.
