Vision Doeve Brokers

Former inland cargo ship, type Skutsje, which is very suitable for both navigating the European inland waterways or a permanent liveaboard. She is completely self-supporting, thanks to, among other things, a whisper generator and the solar panels. With an unique custom-made kitchen in the wheelhouse, an owner's cabin, a guest cabin and a bathroom, it is a comfortable Dutch Barge. We are looking for an interested person who wants to bring this beautiful Dutch Barge back into top condition. She is ready to be sailed away today. So, if you're looking for an adventure on European waters and don't mind a bit of maintenance work, this Skutsje is exactly what you're looking for! In our view, she is also suitable for living on board. Last hull survey is carried out in June 2024.
