Vision Doeve Brokers

Steel ketch rigged sailing yacht of the type 'Seal', designed by the well-known yacht designer E.G. van de Stadt. The centre cockpit gives a secure feeling for sailing at sea and the mizzen ensures stable sailing behavior. The seller has modernized the interior of this yard-built hull, according to his own design, and has managed to create a lot of storage space. In 2019 a new engine was installed and a new gennaker was purchased. The mainsail, furling genoa and mizzen are from 2020. The layout from fore to aft is as follows: cabin with 2 berths, galley, seating area, chart table with seating area, aft cabin with 2 berths and seating area. An excellent opportunity to own a great sailing yacht.
