Vision Doeve Brokers

Steel motor sailer, in Colin Archer style, with two masts and a front cabin with a double bed. Inside steering can be done by using a hydraulic steering wheel and outside using the tiller. The interior is, among other things, made of teak and gives a pleasant feeling. From the wheelhouse, which is equipped with two benches and a folding table, you have a good view all around. The dinette is located opposite the galley. Next there is a toilet room with sink. The boat does require some attention here and there. In our opinion, the deck and superstructure need work, this has already been taken into account in the asking price. She is a sturdy ship that can be enjoyed for many years to come.
