Price information	reduced in price	Material	steel

Vision Doeve Brokers

This is a motor yacht built by the well-known Shipyard Altena, with a cockpit and a covered steering position. There are 2 benches and a steering chair in the cockpit. Under the cockpit floor is the engine compartment, which is neatly maintained and where also the waste water tank is located. There are 2 spacious single beds on both sides of the aft cabin. From the cockpit forward there is the toilet room on the port side, and in front of that the dinette. The kitchen is located on the starboard side and there is a double bed in the point. In the past much has been upgraded, making her, in our opinion, a ready-to-go motor yacht.

General information

Yard:	Yard Altena Jachten, NL-Nieuwendijk
Hull shape:	hard chine
Hull material:	steel
Deck material:	steel
Superstructure material:	steel
Construction method:	aftcabin
	open cockpit
	transom stern
	bollards
