Vision Doeve Brokers

This iconic sailboat is known for her versatility, robustness and excellent sailing performance. Designed by the renowned yacht designer E.G. van de Stadt, this boat combines classic aesthetics with practical functionality. There are two cabins, each with a double bed. The sofas in the salon can be used as two single beds. She is well-equipped with various modern nautical instruments, such as an autopilot, AIS, chart plotter and two VHF radios. Although this sailing yacht has some overdue maintenance, this is an excellent opportunity for a handy do-it-yourselfer. For those who wants to give her the care she needs, this is an exceptionally attractive sailing yacht available at an attractive price.
