Mooring	Near Leeuwarden, Netherlands	Year	1921
		Material	steel

Vision Doeve Brokers

Former inland waterway cargo ship that was built in a series of four for the Waalsteenhandel v/h L.P.J. Geldens from NL-Utrecht. This is number 3. It is a beautiful former motor ship that was extended in the past to the current dimensions but can also very easily be returned to the original dimensions of 35.09 meters. Longer or shorter is of course also possible. Built at the "Boot" shipyard De Hoop in NL-Leiden, makes that she has been built with an eye for detail and beautiful lines. Unfortunately, maintenance has not been carried out for a long time now, which has caused it to fall into a desolate state. But that offers opportunities for someone who is looking for a beautiful houseboat or floating business space. The existing drawings have already been made for this and are based on 38.80 meters. The seller can relieve you from a lot of worries during such a project, as they have all the facets in-house to realize the steelwork according to your wishes. They can realize all the other works too. With her dimensions, she offers a lot of space that can be completely furnished according to your own ideas and that can be with a residential destination, or as a floating business space with workshop and/or office space, but she will also be excellent as a restaurant ship or as a floating hotel or B&B.
