Vision Doeve Brokers

Former inland waterway cargo vessel that became a recreational vessel and cruising Live Aboard / houseboat after leaving commercial shipping. This Dutch Barge was last converted around 2000. The seller had the underwater hull surveyed in the summer of 2024 (with an excellent result) and then had the hull completely painted. The hull has a very nice sheer. This Dutch Barge is equipped with a bow thruster, generator, solar panels, inverter, central heating and more. There is a forecastle which is in use as storage, an owner's cabin with double bed, cupboard space, shower with toilet, spacious laundry room with sink, washing machine and freezer, wheelhouse with side doors, spacious lounge with L-shaped kitchen and the engine room is located in the aft. It is a very pleasant ship to make longer trips with or to stay in beautiful places for a longer period of time. With a mooring in the middle of France, this is an excellent starting point for such.
