Dutch Barge Katwijker 22.25 with ES-TRIN certificate

€ 59.000,--

VAT not applicable

Dimensions (m) 22.25 x 4.82 x 1.45
Mooring Near Breda, Netherlands

Ref. no. 250307
Year 1906
Material steel

Vision Doeve Brokers

A beautiful cargo ship of the type Katwijker, that was once used for transporting goods. The old interior has been completely removed. A ship like this deserves a new life as a live aboard, a recreational vessel or perhaps as a workshop, but with preservation of her character. The current owner is active in inland shipping and very experienced in ship repairs. He has already carried out a lot of work. Much of the steelwork has been professionally restored and the ship has already been partly insulated with 20 cm of rock wool. This project has so far been approached with care, focusing on comfort and sustainability. Six water tanks are ready to be installed. The double glazing for the six windows is already available. The engine, currently being overhauled, will be delivered in working condition. The seller will not complete the project due to personal circumstances but a solid foundation has been laid. This is a project for an enthusiast who wants to finish the ship with an eye for quality and tradition. A unique opportunity to complete a piece of history with a forward-looking vision, according to one's own design.

General information

Yard:	Shipyard NL-Krimpen aan den IJssel
Hull shape:	flatbottom
Hull material:	iron/steel
Deck material:	steel
Superstructure material:	steel
Construction method:	riveted
	new steel is welded
