Vision Doeve Brokers

Characterful and robust former inland cargo vessel (Motortjalk) from 1909, which has been thoughtfully and meticulously converted into a comfortable and self-sufficient liveaboard Dutch Barge. The open cockpit with fixed canopy offers shelter and living comfort in all seasons. Thanks to a sound insulated generator, a recently upgraded electrical system and the combination of solar panels with generous battery capacity, the vessel is well equipped for a long stay on board, even without shore power. The practical interior layout includes a spacious salon, a longitudinal galley, two cabins with a total of three berths, a bathroom and a separate toiletroom. With an air draft of approximately 2.70 meters and a shallow draft, the vessel is ideal for cruising throughout Europe, including the French canals. This certificate-exempt sailing Liveaboard, type Motortjalk, is also perfectly suited for navigation in Germany, Belgium and the Netherlands. An ideal vessel for permanent residence or leisure cruising with the charm of yesteryear and the comfort of modern living.
