Vision Doeve Brokers

Former sailing passenger vessel / sailing chartership, which until recently was actively used as a charter ship on the German Wadden Sea and had the required certification for that purpose. The certificates for the inland waterways have also expired. In January 2025, the underwater hull was repaired to thickness and preserved. The inside of the old hold was thoroughly derusted and, before the floors were reinstalled, it was preserved again. The interior is in neat condition, both the guest accommodation and the aft cabin are representatively fitted out and immediately habitable. The main engine is a John Deere diesel engine, professionally installed in 2006. On board there are also, among other things, a Maritiem Booster central heating system, a generator, solar panels, a combined inverter/charger and a cozy wood-burning stove in the deckhouse. In our view, this vessel is excellently suited as a houseboat or as a comfortable cruising recreational vessel for coastal waters.
