Vision Doeve Brokers

Open passenger vessel certified under ES-TRIN regulations to operate on Zone 4 inland waterways in the Netherlands with a maximum of 35 guests. This steel vessel, with an estimated year of construction, is well maintained and finished in a two-component paint system, reducing maintenance requirements for the new owner. With longitudinal benches/seating and a high-quality cockpit canopy (with zip-out or fully removable side panels), comfort on board is ensured in both good and bad weather. For urgent matters, there is a toilet room with an electric marine toilet present. The diesel engine has been professionally maintained, and together with the electric bow thruster, makes her a vessel that is easy to maneuver.
