Vision Doeve Brokers

This characterful recreational tugboat of the type "Amsterdammer" is a unique presence on the water, with excellent sailing characteristics and a straightforward, functional interior. The spacious forward accommodation is fitted with a galley and two single berths. The wheelhouse is foldable, resulting in an air draft of approximately 1.90 meters, which allows access to an extensive cruising area. In front of the wheelhouse is the generous engine room, housing a magnificent Industrie slow-speed diesel engine, which underwent a complete overhaul in 2010 at a cost of around € 39.000. Additional storage space is located beneath the aft deck. In our view, this is an attractive and well-maintained vessel, ideally suited for the enthusiast and perfectly capable of participating in a wide range of nautical and maritime heritage events.
