## Vision Doeve Brokers

This representative and operational inland hotel passenger vessel offers an excellent opportunity for deployment in the cruise market or as an accommodation vessel. The vessel was built in 1960 and extensively refitted in 1991. Thanks to her wide body superstructure and efficient layout, she offers accommodation for approximately 120 passengers, divided over 64 comfortable guest cabins, all equipped with en-suite sanitary facilities. In addition, there are 12 crew cabins on board. The vessel features a professionally equipped catering facility with a fully equipped galley, spacious restaurant and lounge areas, and various technical installations designed for intensive passenger operation. She is also equipped with, among other things, an elevator, air conditioning and central heating. The sun deck with swimming pool makes her attractive for cruise operations on European inland waterways. With an air draft of approximately 7.20 metres, an extensive cruising area is accessible. The vessel holds a valid ES-TRIN Inland Navigation Certificate. In short, a complete and versatile passenger vessel with a solid foundation, suitable for various operational concepts within the cruise and hospitality sector.

## General information

<b>Yard:</b>	Shipyard Schiffs- und Maschinenbau AG, D-Mannheim
