Vision Doeve Brokers

Built in 1992, this well-maintained and versatile day passenger vessel, with a capacity of 250 passengers, is ready for immediate deployment on inland waterways. The current operation in NL-Friesland can be taken over in consultation. The Scania engines provide efficient propulsion and a top speed of approximately 16 km/h on calm water. Combined with a 360-degree rotatable 210 hp Volt bow thruster, the vessel offers excellent manoeuvrability. The interior is in excellent condition and is practically and professionally fitted out. On board, there is a fully equipped galley including a 4-burner stove, dishwasher and various refrigeration units, as well as a bar. The spacious salons ensure a comfortable and pleasant experience for passengers. For extra accessibility, the vessel is equipped with a wheelchair lift to both the lower deck and the upper deck. The sanitary facilities are well arranged, with separate ladies' and gentlemen's toilets and a toilet for disabled people on both decks. Thanks to the generous layout and the upper salon with a partially retractable roof, creating a sun deck, this vessel is ideally suited for a variety of purposes such as sightseeing cruises, parties, corporate events and tourist excursions.
